Working Hard for Southward.

In the last ten days the Republicans of sedistrict, who had been divided into we factions, as a result of the row in lest committee, have patched up a truce, and other of the most active leaders in se party have gone to work for Southward. This is all of a piece with the leaf of the Republican party for following a side of the Administration of the Republican party for following assiduously to organize the party the district. As for Southward, he has seen the factions, and the district. As for Southward, he has seen working day and night, especially many the negroes, and a good many extet negro meetings have been held.

Ellett, the candidate party.

There should be no lagging and no holding back. Go to the polls and vote for Tazewell Ellett.

Every Democrat who votes for J. M. Gregory, the Popullst candidate, practically gives a vote for Southward.

Democrats, do not throw away your votes! votes!

Tazewell Ellett is the Democratic nominee, and I urge upon all Democrats the importance of voting for him. Again, I requiest and charge all good Democrats to vote early, and for Tazewell Ellett, and, as we confidently expect, victory will perch upon our banners.

E. L. C. SCOTT, Chairman Third District Committee. The City Democratic Committee met

last night and perfected all the details for the election, and upon adjournment held a conference with the Ellett Cam-paign Club. The object of this conference following result of the campaign: "I think I can truthfully say that no politito the work at the polis to-day.

Yesterday afternoon the election judges, clerks, and constables had a conference at the county court-house, and arranged the details of their work.

judice.

"The outcome, however, depends entirely upon the city of New York. Mr. Morton will certainly not come down to the bridge with a majority greater than 40,000. Senator HIW should have no difficulty in overcoming that south of the Harlem. Taking the last twenty years' consistent that the state of experience, it has been shown that the regular Democratic vote in this city is about 62 1-2 per cent of the total. Airegular Democratic vote in this chy is about 62 1-2 per cent of the total. Allowing for a slight decrease in this, Senator Hill should in this city alone have a majority of over 60,000. In Kings county we look for him to have at least 10,000. Richmond county, I think, should be carried by from 1,000 to 1,200. Eric county, I think, will carry, but it is doubtful. However, if we loose, the majority against us will be but slight.

"Senator Hill, during the campaign, has talked to over 150,000 people, which will certainly operate in his favor. If we lose the battle, it may be said of the Democratic party, as it was said in the Bible of a certain woman: 'She hath done what she could.' We have certainly made every effort, and I think we will win. I am not in the least worried over

upon the people. He showed that a vote for Gregory or any other false god meant a vote for Southward, and that if Henrico should give the latter a majority it would be no easy task to redeem her from Republican rule in the future.

Mr. Boyce interspersed his remarks with several amusing anecdotes, which kept the audience in a good humor, and more than once they cried "Go on." He said that Colonel Ellett was well worthy of the support and confidence of the people, and made a stirring appeal to all present not to desert the old flag, but to stand to their guns on the 6th. This was the only meeting held here during the canvass, but the people seem aroused and ready for action. REPUBLICAN FIGURING. Republicans at headquarters in the Fifth-avenue Hotel this morning figured that Morton and Saxton would have a plurality of from 40,000 to 50,000. Chairman Hackett, who has not hitherto done much guessing, placed his estimate for Morton at 50,000 in the State. He would not right his reputation by making any Morton at 50,000 in the State. He would not risk his reputation by making any guess about the vote in this city or in Kings county. Others at Republican headquarters gave it as their opinion that Hill's plurality in New York county would be not over 42,000, and that in Kings county the Democratic plurality would be kept down to 40,000, if not wiped out altogether.

BULLETINS.

From the preparations that have been made here for receiving the election-returns to-morrow evening one might suppose a presidential contest was going on. Most of the daily papers will display bulletins in front of their offices, and returns will be given out at the theatres during the evening. A big hall has been rented, and for 10 cents a reserved seat can be had, and the quickest and freshest news will be displayed by a firm who issue daily in Washiongton news bulletins with several editions. At some of the clubs and hotels there will also be bulletins. All this goes to show that 1891 is not so much an "off year" as the Republicans hope it will be. If the interest is as great in Virginia and North Carolina as it seems to be in other sections, each State ought to certainly elect a solid Democratic deregation to Congress.

Many left for different points this afternoon and evening, and others will start to-morrow morning. The Virginia Democratic Association have been just as active this year as usual, and the members of the organization have done all in their power to work up interest and enthusiasm in the election for members of Congress. It is realized how important it is to the party to retain control of the House of Representatives and the loss of a few districts might possibly affect the result. Perhaps the heaviest vote among the restdent people here will be cast in the Eighth District, as the homes of so many are near Washington.

2. Its official promulgation has been delayed to give the general commanding time and opportunity to fairly consider all the conflicting statements and to save, if possible, the brotherhood from desintegration, on account of these disagreements and misunderstandings. Many claim that the convention, in its haste and in the excitement and confusion of the adjournment, did not at all understand the extent and purport of its action, as vitally affecting the life and welfare of the order, and as another constitution had been distributed to the camps and to the delegates there, many

To-day Irwin's offices remain closed, and the clerks are taking a vacation. They all believe he will return to the city within ten days, and are of the opinion that he will resume business. Yesterday an intimate friend of Irwin's received a telesram from him directing that the offices be kept closed until his return. It was learned to-day that Irwin is now in New York in consultation with his correspondents.

Trouble Expected in the Louisville District To-Day-Owens's Election Doubtful.

LOUISVILLE, KY., November 5.—The campaign has been one of excitement from more aggressive than ever before known the offices to be filled. The Democrats will elect their congressional candidates in the First, Second, Fourth, Sixth, and Eighth districts, and probably the Seventh Dis-trict. The last-named is Breckinridge's district, in which Owens is the Demo-cratic nominee, and Judge Denny the Republican. Owens's election is made doubtful because many of the friends of Breckinridge have refused to support

doubtful districts are the Third, Fifth, Ninth, Tenth, and Eleventh, the chances being about evenly divided.

In this, the Fifth District, there is a suppressed feeling of excitement this evening, which forebodes trouble to-morrow. Over one hundred Republican election-officers have been removed, and Democrats appointed to succeed them during the past forty-eight hours. The old officers were appointed to serve for a year, and as they have eleven months yet to serve, they will attempt to take forcible possession of the books, and trouble will probably result.

Having an occasion to visit Julius Sycle & Sons' store yesterday morning, I found that I could not be admitted, owing to the dense crowd, and I had to call the second time, and the store was crowded to the utmost capacity, the ladies purchasing the immense bargains displayed throughout the entire establishment. Indeed, I was more than pleased with my purchase. They surely keep a nice line of goods there. This sale is to be continued.

"I have late information from all the States and close congressional districts, and without a single exception these reports show large Republican gains, and districts that will elect Republicans beyond any question, and 35 districts in

which we have more than an even chairs to elect. I confidently believe that we will have a good working majority in the next House."

Later in the day Mr. Babcock gave out for publication a statement showing by States the congressional districts which he regards as certain to elect Republican positions to more than an applied to more than a statement and the another than the statement of the st nominees to-morrow, and in another column the probable total number, in-cluding the doubtful districts. He says that the committee feels confident from its advices that the Democrats will elect a majority of the members, and does not see how the complexion of the House can be changed from Democratic to Republican. He cannot understand, he says, on what the Republicans base their assertions of control.

our loved friend and brother, Patrick Keenan.

He was our first president—our first delegate to the Supreme Council of the Catholic Knights of America. The melancholy duty be curs to remember the grace with which he presided, and the honor with which he represented us in the august assemblies of our federation. Endowed with qualities that well-fitted him for the marital state, he was yel not insensible to the endearing ties that bind brother to sister and son to mother.
